Projects

Eatery
live site | GitHub

STACK: Ruby, Rails, React, Redux, PostgreSQL, AWS, HTML, Sass, Git
Description: A full stack web application that allows users to create an account, view local restaurants and reviews, and post their own reviews
⇒ Delivers full backend and frontend development featuring BCrypt password encryption, a Google Maps API, and search bar functionality
⇒ Maximizes efficiency by making use of AJAX requests and rendering components only as needed based on the url

Wall-E Ball
live site | GitHub

STACK: JavaScript, HTML, CSS, Git
Description: A pure JavaScript game inspired by Doodle Jump
⇒ Utilizes a JavaScript Canvas and requestAnimationFrame to render a seamless scrolling 2D motion experience
⇒ Showcases the use of Euclidean vectors to simulate gravity and to determine the way Wall-E moves across the canvas

At Your Service
GitHub

STACK: Ruby, Rails
Description: A coding exercise that walks through basic server functions while allowing users to experiment with server requests and observing responses
⇒ Demonstrates server and controller manipulation to customize response data

Experience

Licensed Relationship Manager

Citizens Bank / Key Bank   Sept 2014 – Sept 2017
⇒ Won over clients by providing great customer service, including a client that started with a phone call and ended in a banking relationship worth 34 million
⇒ Achieved regional top five banker status by third quarter of being hired and earned Series 6, 63, and 65 within four months of being promoted

Associate Pastor

Cornerstone Church of Boston   Sept 2008 – May 2015
⇒ Organized support for local soup kitchen & multiple disability school
⇒ Created structures for how to recruit volunteers and the process they should go through to learn ministry goals and tasks, develop the right character and mindset, and identify their fit for the ministry

Technical Skills

Ruby / Ruby on Rails
JavaScript
HTML
CSS / Sass
Canvas
React
Redux
AWS
Heroku
Node.js
SQL / PostgreSQL
jQuery
RSpec
Adobe Premiere
Adobe Audition

Education

App Academy
Full Stack Development
Completion: November 2017
Studied object oriented programming and created full stack web applications using skills in: Ruby, Rails, React, Redux, JavaScript, Node.js, HTML, CSS

Gordon Conwell Seminary
Master of Divinity - 2011

University of Washington
B.A. in Philosophy - 2005
B.A. in Psychology - 2005

Languages

English – fully fluent
Korean – fluent conversation
Spanish – basic conversation
